Abstract - With the objective to reduce gender inequality by economic empowerment of women the Self-Help Group (SHG) movement is well-known and important among the several initiatives taken up and measures adopted in the third world countries. With the objective to help poor escape from poverty Muhammad Yunus provided loans on terms suitable to them and taught them a few sound financial principles so that they could help themselves. Muhammad Yunus a Bangladeshi social entrepreneur, banker, economist, and civil society leader who was awarded the Nobel Peace Prize in 2006 for founding the Grameen Bank and pioneering the concepts of microcredit and microfinance. Thereafter the importance of SHG movement was then internationally recognized. SHG is now universally accepted as a great tool which empowers women to become self sufficient, self reliant and to actively participate in taking decision themselves in their day-to-day life.

The objective of this research is to collect latest data and informations to analyze impacts and developments of SHGs in district Jaunpur of Uttar Pradesh, India.

Keywords: SHG, Women empowerment, Economical empowerment, Role of SHG, Microcredit

I. INTRODUCTION

The initial scheme Swarnajayanti Gram Swarozgar Yojana (SGSY) was launched in 1999. It was renamed as National Rural Livelihood Mission in 2011. Finally they were merged into DDU-AY. The SGSY was somewhat intended to provide self-employment to millions of villagers. The programme aims at bringing the assisted poor families above the poverty line by organising them into self-help groups (SHGs) through a mix of bank credit and government subsidy. The main aim of these SHGs was to bring these poor families above the poverty line and concentrate on income generation through combined effort. The Swarna Jayanti Swarozgar Yojna (SGSY) has been renamed as National Rural Livelihood Mission (NRLM). With this the

scheme was planned to be made universal, more focussed and time bound for poverty alleviation by 2014. [1]

National Rural Livelihood Mission (NRLM) is a poverty alleviation project implemented by Ministry of Rural Development, Government of India. This scheme is focused on promoting self-employment and organization of rural poor. The basic idea behind this programme is to organize the poor into SHG (Self Help Groups) groups and make them capable for self-employment. In 1999 after restructuring Integrated Rural Development Programme (IRDP), Ministry of Rural Development (MoRD) launched Swarnajayanti Grameen Swarojgar Yojana (SGSY) to focus on promoting self-employment among rural poor. SGSY is now remodeled to form NRLM thereby plugging the shortfalls of SGSY programme. This scheme was launched in 2011 with a budget of \$5.1 billion and is one of the flagship programmes of Ministry of Rural Development. This is one of the world's largest initiatives to improve the livelihood of poor. This programme is supported by the World Bank with a credit of \$1 Billion. The scheme was succeeded by Deen Dayal Antyodaya Yojana on 25 September 2015.

About 59 percent of the sample women SGSY beneficiaries are observed to be women, which is considerably higher than the targeted 40%. Over 69 per cent members belonged to SC, ST caste groups, about 21 per cent to OBC caste group and only about 8 per cent to the forward caste group. The minority community has just registered its presence by about 2 per cent membership.[4]

II. LITERATURE REVIEW

Kappa Kondal (2014) conducted a study of women empowerment through Self-Help Groups in Gajwel Mandal of Medak District in Andhra Pradesh. In the present study, simple statistical tools adopted. Based on the analysis of

women empowerment through self help groups in Gajwel, the major findings of this study revealed that, there is a positive impact of Self Help Groups on Women empowerment in Gajwel Mandal of Medak District in Andhra Pradesh.

Dhanalakshmi and Rajini (2013) looks at the literature around the self help groups (SHGs) movement in India. It is hoped that it will be useful to fellow researchers who are undertaking studies in this area. It exposes the historical background of self help groups in Indian context. This paper reviews literature on the subject's empowerment process in relation to a self-help group as well as related literature. It is important to note that most literature has been focusing on empowerment as the outcome not as the process. There have been limited studies that explore the relationship between a self-help group and the process of empowerment.

According to Ramakrishna, et al (2013), Self-Help Groups are formed for addressing their common problems. They make regular savings habit and use the pooled savings for the benefit of their members through a structured process of essential financial intermediation like prioritization of needs, setting self-determined terms for repayment and keeping records. It builds financial discipline and credit history that then encourages banks to lend to them in certain multiples of their own savings and without any demand for collateral security. The present study is based on secondary data source and considered as the powerful instrument for women empowerment and eradication of poverty. The SHG Bank Linkage has made an adventure in the economy by transforming the formal banking services to rural poor and needy people particularly women group.

Yadav (2013) conducted a study, the objective of which is to understand women empowerment through self-help-groups of Nagthane village. The primary data has been collected through questionnaire instruments and secondary data consists of books, journals, and websites. Thus the paper emphasizes that the SHGs are the effective instruments of women empowerment, and to made suggestions for well functioning of SHGs of women in general and Nagthane village.

Pandey and Rini Roberts (2011) examined the impact of participation in Self Help Groups on the empowerment of women in Chamarajnagar District of Karnataka using personal narrative method. The authors recommended that it is necessary to provide a convergence of inputs, ensuring a proactive involvement of women in the program, changing social norms and perceptions and anchoring with wider movements of social change. Tripathy and Jain (2011)

assessed the distributional implications of the world's largest ever government operated micro-finance programme and examines the suitability of the Self Help Group (SHG)-micro-enterprise framework towards effective income generation and poverty alleviation. The statistical analysis indicates that while internal savings and group corpus have a positive and significant effect on the income growth of beneficiaries, bank credit does not have any such impact. The results also highlight that the socially and economically forward regions are more likely to benefit from this programme. This has policy implications towards effective governance of government operated micro-finance initiatives in developing nations.

III. PROPOSED METHODOLOGY

Paper is based on the latest data retrieved from the website of National Rural Livelihoods Mission to analyze impacts and developments of SHGs in district Jaunpur of Uttar Pradesh, India. Collected data will be further compared in another research work with the recent developments of SHGs in the same location.

As per the latest notification by Women Self-help groups formed in the villages under the Swarna Jayanti Swarojgar Yojana will get preference in the selection of government-owned cheap shops. In a major step towards women empowerment, Uttar Pradesh government has decided to involve women self help groups in distribution of nutrition fortified food for children and pregnant ladies in state. An Memorandum of Understanding has been signed between UP Rural Livelihood Mission and UN World Food Programme for procurement and distribution of Take home rations THR, which are energy dense foods given to kids and pregnant ladies. Take home rations (THR) are micro nutrition fortified foods which are given to children under six years of age and pregnant and lactating women under the Integrated Child Development Services (ICDS). The

collaboration will be launched in 204 blocks of 18 districts in the first phase and then extended to cover all blocks in the state's 75 districts. The Self Help Groups involved in the task have formed micro enterprises which are to be registered as a company, licensed by the department of industries.

The company will manufacture THR and take it to designated ICDS centres. With this women from around 3 thousand women self help groups will become entrepreneurs through this. Each women will get employment of more than 240 working days. An employment generation of more than 7 lakh 20 thousand person days and income of 5 to 7 thousand per person is expected from the scheme. The total business turnover worth Rs 1,200 crore in the 18 districts with is also expected from it. UP government believes that the initiative will not only ensure distribution of nutritious food to expectant mothers and small children but the economic independence provided by the initiative will help women fight back oppression and violence.

V. CONCLUSION

This recent study has shown that, there is an increase in the development of SHGs in Jaunpur and further the concept of SHG is a better strategy to uplift social and economic status of women and other weaker sections of the society. Due to which participation, mobility, knowledge and awareness of women and other weaker sections of the society is enhanced.

VI. LIMITATIONS OF THE STUDY

Since the data was fetched from the website of National Rural Livelihoods Mission the major limitations of study as reported by them were as follows: -

- The report has been prepared based on the data collected from the published secondary data
- Data uploaded on website was updated frequently and the scope of human error cannot be neglected

VII. FUTURE SCOPES

This study will be further incorporated in another research paper to evaluate the further comparison and development of rural women empowerment through Self Help Groups in recent years.
